TRANSCRIPT S1.E4. Melanoma (Part 1)

Victoria: Melanoma, you're quite right, is imminently curable with surgery for up to 90% of cases. In fact, if it's caught really early, particularly if it's in situ, melanoma, which means it's confined to the epidermis and it hasn't started to invade yet, then there is no risk of spread. That's where we want to diagnose melanoma.
