[Public Crisis Management](#) Jul 26 2019 Public Crisis Management is an inter-organizational primer. In detail, it describes the strengths and limitations of organizations that work together to resolve some of mankind's worst shared dilemmas. Wildland firefighting, emergency and disaster management, and public safety networks are studied to uncover what each network form does well and not so well. Those networks are also used to provide a general management framework that other crisis management networks will find useful. The book's five principles identify "ingredients" necessary to form and maintain relationships of multiple organizations in pursuit of public health, safety, and security. Public Crisis Management is useful for both the academic and practitioner communities as so many key business, government, and international decisions rest on the cooperation and coordination of more than one organization to resolve modern problems.

Commanders' Survey May 04 2020 "The School for Command Preparation, Command and General Staff College, Fort Leavenworth, KS provides three sequential courses for battalion and brigade command selectees. All command designees attend the PreCommand Course (PCC). PCC provides common understanding of current doctrine, and up-to-date information on Army-wide policy, programs and special items of interest. In conjunction with PCC, spouses are invited to attend the Command Team Seminar (CTS). With commanders, they gain awareness of issues that impact families, the unit, and the community. The remaining two courses, the Tactical Commanders' Development Course (TCDC), and the Battle Commanders' Development Course (BCDC) emphasize warfighting skills and the art of battle command for tactical leaders. The Fort Leavenworth Research Unit developed a survey instrument to obtain commanders' assessment of courses following assignment to their commands. Commanders who had attended these courses in the previous 2 years were solicited for feedback. They gauged the usefulness of topics presented, and indicated their level of agreement with statements regarding the courses. They were asked what issues they felt were not addressed during the course and what they would share with incoming commanders. Responses (N=254) were compiled and analyzed. All courses received positive evaluations. Many commanders desired discussions with experienced commanders to cover OPTEMPO, resource constraints, and personnel management issues. Feedback provided useful suggestions and current trends." -DTIC.

[Managing Civil-Military Cooperation](#) Oct 21 2021 Civil-military cooperation has always been a key factor in both peace and conflict situations, and is vital in today's political climate. This indispensable volume analyzes the various types of civil-military cooperation across different settings and contexts, to include humanitarian operations such as emergency relief following tsunami, earthquakes and refugee crises, as well as stability and reconstruction operations such as those in Afghanistan and the Democratic Republic of Congo. The book contains contributions from both senior academics and practitioners such as military

officers and humanitarian personnel and discusses the benefits and logistics of civil-military cooperation. It closes with recommendations that will be of value to both academics and practitioners, making it a must read for anyone interested or involved in these operations.
