When people should go to the book stores, search commencement by shop, shelf by shelf, it is truly problematic. This is why we present the books compilations in this website. It will entirely ease you to look guide **Europe Since 1945 A Concise History** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections. If you plan to download and install the Europe Since 1945 A Concise History, it is categorically easy then, back currently we extend the join to purchase and create bargains to download and install Europe Since 1945 A Concise History as a result simple!

[The Concise Encyclopedia of World War II](#) Jun 15 2021 The editor gratefully acknowledges the many other Foundation Center staff who contributed support, encouragement, and information that was indispensable to the preparation of this volume. Special mention should also be made of the staff members of the New York, Washington, DC, Cleveland, San Francisco, and Atlanta libraries who assisted in tracking changes in foundation information. We would like to express our appreciation as well to the many foundations that cooperated fully in updating information prior to the compilation of The Foundation Directory.

A Concise History of Finland Sep 06 2020 An up-to-date political, social and economic history of Finland from medieval times to the present. David Kirby traces the evolution of Finland's distinctive identity and of the Finnish national state from the long centuries under Swedish rule, through self-government within the Russian Empire, to independence in the twentieth century.

[European Integration](#) Dec 22 2021 Now in a fully revised and updated edition, this book remains the standard for concise histories of the European Union. Mark Gilbert offers a clear and balanced narrative of European integration since its inception to the present, set in the wider history of the post-war period. Gilbert concludes by considering the Union's future in light of the mood of crisis that has taken hold in the EU in the aftermath of the global recession, the refugee crisis, and Brexit. Listen to a New Books Network interview with the author at <https://newbooksnetwork.com/hosts/profile/4c7e90cb-b33e-4121-99fb-9813f2889437>.

A Concise History of Germany Jul 25 2019 The multi-faceted, problematic history of the German lands has supplied material for a wide range of debates and differences of interpretation. This second edition spans the early Middle Ages to the present day, synthesizing a vast array of historical material. Mary Fulbrook explores the interrelationships between social, political and cultural factors in the light of the latest scholarly controversies. First Edition Hb (1991): 0-521-36283-0 First Edition Pb (1991): 0-521-36836-7

War Since 1945 May 27 2022

[A Concise History of Poland](#) Jul 05 2020 The second edition of this guide to Poland has been updated to take account of the years from 1989-2005. This period marked its liberation from the Soviet Union, the birth of Poland's 'Third Republic' and, recently, its accession to the European Union in 2004. Poland's history has been marked by its resilience. Once a dominant force in central and eastern Europe and home to a remarkable experiment in consensual politics, it was excised from the map by its neighbours in 1795. Resurrected in 1918, partitioned afresh during the Second World War, it survived to become a satellite of the Soviet Union. Yet in the 1980s, it was Poland which blazed the trail in casting off communism, and was finally able to reassert its Christian heritage. With its updated bibliography and new chronology, the book is the ideal companion for all looking for a comprehensive survey of this fascinating country.

A Concise American History Feb 21 2022 Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional resources Maps and images bringing to life important events and figures from America's history Clearly and engagingly written and positioning America's narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

[Environmentalism Since 1945](#) Apr 25 2022 This book provides an introduction to the greening of politics, science, economics and culture in the post-war period. It covers issues such as: the birth of the environmental movement, development of global environmental governance, climate science and the rise of climate scepticism, the Green New Deal and the call for prosperity without growth, greening of mainstream culture and efforts to change attitudes, and behaviour challenges the environmental movement will have to address to continue to be a force change. The author provides a historical perspective for each topic, anchoring them to real events, influential ideas, and prominent figures.

A Companion to Europe Since 1945 Apr 13 2021 A Companion to Europe Since 1945 provides a stimulating guide to numerous important developments which have influenced the political, economic, social, and cultural character of Europe during and since the Cold War. Includes 22 original essays by an international team of expert scholars Examines the social, intellectual, economic, cultural, and political changes that took place throughout Europe in the Cold War and Post Cold War periods Discusses a wide range of topics including the Single Market, European-American relations, family life and employment, globalization, consumption,

political parties, European decolonization, European identity, security and defence policies, and Europe's fight against international terrorism Presents Europe in a broad geographical conception, to give equal weighting to developments in the Eastern and Western European states

A Concise History of Canada Feb 09 2021 Margaret Conrad's history of Canada begins with a challenge to its readers. What is Canada? What makes up this diverse, complex and often contested nation-state? What was its founding moment? And who are its people? Drawing on her many years of experience as a scholar, writer and teacher of Canadian history, Conrad offers astute answers to these difficult questions. Beginning in Canada's deep past with the arrival of its Aboriginal peoples, she traces its history through the conquest by Europeans, the American Revolutionary War and the industrialization of the nineteenth and twentieth centuries to its prosperous present. Despite its successes and its popularity as a destination for immigrants from across the world, Canada remains a curiously reluctant player on the international stage. This intelligent, concise and lucid book explains just why that is.

A Concise History of Nazi Germany Mar 01 2020 This balanced history offers a concise, readable introduction to Nazi Germany. Combining compelling narrative storytelling with analysis, Joseph Bendersky presents an authoritative survey of the major political, economic, and social factors that powered the rise and fall of the Third Reich. Now in its third edition, the book incorporates the significant research of recent years. Delving into the complexity of social life within the Nazi state, it also reemphasizes the crucial role played by racial ideology in determining the policies and practices of the Third Reich. Bendersky paints a fascinating picture of how average citizens negotiated their way through both the threatening power behind certain Nazi policies and the strong enticements to acquiesce or collaborate. His classic treatment provides an invaluable overview of a subject that retains its historical significance and contemporary importance.

A History of Environmental Politics Since 1945 Mar 25 2022 An overview of contemporary environmental affairs, from 1940s to the present—with an emphasis on nature in an urbanized society, land developments, environmental technology, the structure of environmental politics, environmental opposition, and the results of environmental policy.

Crisis and Crossfire Aug 18 2021 Although it seems almost incredible today, the United States had relatively little interest in the Middle East before 1945. But the dynamics and outcome of World War II elevated the importance of the Middle East in the American mind, and the United States has viewed the region with vital interest to its security and economy ever since. The projection of American power into the region has had consequences that have forever changed the United States and the Middle East, with the rise of al Qaeda and the turbulent occupation of Iraq being the latest examples. *Crisis and Crossfire* surveys and analyzes the broad contours of U.S. involvement in the region. It probes the reasons why the United States implemented various policies and assesses the wisdom of American leaders as they accepted greater responsibilities for preserving stability and security in the Middle East. Major themes include U.S.-Middle East policy in the context of the Cold War, the rise of Arab and Iranian nationalism, decolonization, the U.S. approach to the Arab-Israeli conflict, the politics of Western dependence on Middle Eastern oil, and America's military interventions, particularly its two wars against Iraq. This book's concise narrative and selection of primary-source documents make it an ideal introduction to U.S.-Middle East relations for students and for anyone with an interest in understanding the history behind today's events.

The Art of Democracy Aug 25 2019 "An exceptionally well-written and engrossing introduction to the nonelitist art forms of American popular culture." --Library Journal(starred review)

The Archipelago May 15 2021 'An enjoyable, highly readable history that manages to bring murky, often fiendishly complex events into the light' Sunday Times Italy emerged from the Second World War in ruins. Divided, invaded and economically broken, it was a nation that some claimed had ceased to exist. By the 1960s, Italy could boast the fastest-growing economy in the world, as rural society disappeared almost overnight. In *The Archipelago*, acclaimed historian John Foot chronicles Italy's tumultuous history from the post-war period to the present. From the silent assimilation of fascists into society after 1945 to the artistic peak of neorealist cinema, he examines both the corrupt and celebrated sides of the country. While often portrayed as a failed state on the margins of Europe, Italy has instead been at the centre of innovation and change - a political laboratory. This new history tells the fascinating story of a country always marked by scandal but with the constant ability to re-invent itself. Comprising original research and lively insights, *The Archipelago* chronicles the crises and modernisations of over seventy years of post-war Italy, from its fields, factories, squares and housing estates to the political intrigue of Rome.

The War Aug 06 2020 Illustrated narrative covers all aspects of the global war from the invasion of Poland to the Japanese surrender and includes a brief summary of significant events that preceded and followed it

Battle Story: Iwo Jima 1945 Jan 29 2020 Operation Detachment, the US invasion of Iwo Jima on 19 February 1945, was the first campaign on Japanese soil and resulted in some of the fiercest fighting in the Pacific. If you truly want to understand what happened and why - read *Battle Story*. Detailed profiles explore the leaders, tactics and equipment of the US and Japanese armies. Nine specially commissioned maps track the progress of the battle and the shifting frontlines. Rare photographs place you in the centre of the unfolding action. Diary extracts and quotes give you a soldier's eye-view of the battle. Orders of Battle reveal the composition of the opposing forces' armies. Packed with fact boxes, this short introduction is the perfect way to explore this important battle.

Music Since 1945 Jan 23 2022 This text presents a challenging and comprehensive survey of the music of the postwar periods. Written in a concise and engaging style, the authors encourage students to re-examine aesthetic assumptions and cultural biases as they explore the rich diversity of music in our time.

The World Since 1945 Jun 27 2022 This accessible and stimulating account of world history since 1945 provides a framework for making sense of the political and social developments of this period. The underlying theme of the book is the tension between the world conceived as a unity and the world conceived as a diversity. From this perspective, the author discusses the impulse towards globalization in the aftermath of the Second World War, the divisions inherent in the Cold War, and the shifting allegiances and conflicts in the decades which followed. He ends with an assessment of our position with regard to world unity and disunity as the millennium approaches.

Germany, 1871-1945 Aug 30 2022 *Germany, 1871-1945* presents an original, lucid, and thought-provoking history. Its aim is to inspire readers to weigh the historical evidence. At the end of the Second World War, the first unified German state collapsed, a disintegration with European and global ramifications. Ever since, historians have sought to explain what went wrong in German history. Many have focused on the violence which forged unification; others have highlighted the clash of authoritarian, anti-democratic, and anti-Semitic traditions with rapid industrialization and modernization. *Germany, 1871-1945* presents a pragmatic interpretation of German history, from the unification to the end of the Nazi regime. This more open approach acknowledges the strong trend in German society towards modernization and democratization, particularly before 1914, while also highlighting the factors which propelled Germany toward World War I. The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and early 1930s. Finally, a detailed assessment of the Third Reich explains how the regime's early successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable.

US Foreign Policy Since 1945 May 03 2020 US Foreign Policy since 1945 is an essential introduction to postwar US foreign policy. It combines chronologic and thematic chapters to provide an historical account of US policy and to explore key questions about its design, control and effects. New features of this second edition include: expanded coverage of the Cold War new chapters on the post-Cold War era chronology and a new conclusion that draws together key themes and looks to the future. Covering topics from American foreign policy-making, US power and democratic control,

Furniture Dec 10 2020

America Views the Holocaust, 1933-1945 Nov 20 2021 Were Americans the heroic liberators of Nazi concentration camp victims in 1945, or were they knowing and apathetic bystanders to unspeakable brutality and annihilation for a dozen years? Historians have long debated what the United States knew about Hitler's gruesome Final Solution, when they knew it, and whether they should have intervened sooner. Wrapping

historical narrative around 60 primary sources — including news clippings, speeches, letters, magazine articles, and government reports — Abzug chronicles the unfolding events in Nazi Germany while tracing the resurgence of anti-Semitism and tightening immigration policies in the United States. He relies on the American journalistic sources through which U.S. citizens read about events in Europe to provide students a real context to understand Americans' horror when they realized that the reports of the Holocaust were not exaggerations or fabrications. An epilogue examines the complexity of historical interpretations and moral judgments that have evolved since 1945. Useful apparatus includes photographs, a chronology, questions for consideration, a bibliography, and an index.

Europe since 1945 Nov 01 2022

Europe, 1890-1945 Jun 03 2020 The first half of the twentieth century was of one of the most turbulent periods in Europe's history. While social theorists challenged orthodox ways of thinking about the establishment of a "good society," scientists offered up new visions of the workings of the universe. Women fought for increased power within the altered social landscape, and change and controversy reigned in the worlds of art and culture. The chaos of world politics ushered in the two great wars, which would forever alter Europe's position in the world. Europe, 1890-1945 offers a concise, accessible overview of this tumultuous time period. It provides a clear outline of the political events that shaped the age and offers a discussion of the seismic shifts in social and cultural landscapes. Topics covered include the rise of modernism in the arts, Social Darwinism and its effects on theories of race, the making of "national" identities, the origins of the modern ecology movement, and the changing roles of women in an era of war and violence. The authors thoroughly analyze the causes and effects of the two great wars, while reaching beyond Europe to discuss the events in the United States, Africa, and Asia that contributed to the evolving face of world politics. With nine maps for easy reference, chapter summaries to aid in reader comprehension, a detailed chronology, and twenty-four photographs, Europe, 1890-1945 is an ideal text for undergraduate courses that explore the crisis and conflict that governed the early twentieth-century European world.

War and Genocide Jan 11 2021 Examining one of the defining events of the twentieth century, Doris L. Bergen situates the Holocaust in its historical, political, social, cultural, and military contexts. Including firsthand accounts from perpetrators, victims, and eyewitnesses, her book is immediate, human, and eminently readable.

The Era of Franklin D. Roosevelt, 1933-1945 Jun 23 2019 The era of Franklin D. Roosevelt and the New Deal was a time of depression and despair, economic rebirth and renewal, and mobilization for a war in both the East and the West. Richard Polenberg's introduction to this new volume provides an engaging historical and biographical overview of the period by focusing on one of its key actors. The biographical introduction is followed by over 45 topically arranged primary sources that provide students with a rich context in which to understand FDR's multifaceted role as president, reformer, policymaker, and commander-in-chief. The readings thoroughly cover issues of race and ethnicity, profile First Lady Eleanor Roosevelt, and explore the New Deal's transformative agencies for their economic and social ramifications and the constitutional revolution they triggered. A chronology, questions for consideration, a selected bibliography, and an index are also provided.

French Foreign Policy since 1945 Jul 17 2021 When Charles de Gaulle declared that "it is because we are no longer a great power that we need a grand policy," he neatly summarized France's predicament on the world scene. In this compact and engaging history, author Frédéric Bozo deftly recounts France's efforts to reconcile its proud history and global ambitions with a realistic appraisal of its capabilities, from the aftermath of World War II to the present. He provides insightful analysis of the nation's triumphs and setbacks through the years of decolonization, Cold War maneuvering, and European unification, as well as the more contemporary challenges posed by an increasingly multipolar and interconnected world.

The German Wars Jul 29 2022 The German Wars: A Concise History, 1859-1945 outlines the history of European warfare from the Wars of German Unification to the end of the World War II. The title aside, the book is not be another history of the German military; it takes a much broader approach looking at political, social, economic, and military developments across Europe, and the United States during the period. The "German War" part of the title is there because Germany plays the central part in the story. But the key element threading its way through this volume is the Industrial Revolution.

US Economic History Since 1945 Sep 18 2021 Since 1945 the US economy has evolved from an expanding consumer society in which affluence was more widely distributed than ever before. Mike French's volume examines the principal economic developments and social changes in the US since 1945, including those in business, regional dynamics, protest movements, and population distribution. Social movements based on the civil rights demands of African-Americans, ethnic minorities, and women are also examined. The elements of continuity to pre-1945 trends and the points of departure, notably in the post-1970 period, are discussed to provide a more complete examination than previously available.

Rethinking the American Environmental Movement post-1945 Oct 08 2020 Rethinking the American Environmental Movement post-1945 turns a fresh interpretive lens on the past, drawing on a wide range of new histories of environmental activism to analyze the actions of those who created the movement and those who tried to thwart them. Concentrating on the decades since World War II, environmental historian Ellen Griffith Spears explores environmentalism as a "field of movements" rooted in broader social justice activism. Noting major legislative accomplishments, strengths, and contributions, as well as the divisions within the ranks, the book reveals how new scientific developments, the nuclear threat, and pollution, as well as changes in urban living spurred activism among diverse populations. The book outlines the key precursors, events, participants, and strategies of the environmental movement, and contextualizes the story in the dramatic trajectory of U.S. history after World War II. The result is a synthesis of American environmental politics that one reader called both "ambitious in its scope and concise in its presentation." This book provides a succinct overview of the American environmental movement and is the perfect introduction for students or scholars seeking to understand one of the largest social movements of the twentieth century up through the robust climate movement of today.

The War: a Concise History, 1939-1945 Oct 20 2021

A Concise History of the Modern World Oct 27 2019 In an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from Asia to Western Superiority. It is shown that in so many ways the problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.

A Concise History of the Third Reich Mar 13 2021 This is an authoritative history of the twelve years of the Third Reich from its political takeover of January 30, 1939 to the German capitulation in May 1945.

Countdown 1945 Nov 28 2019 A "behind-the-scenes account of the 116 days leading up to the Americans attack on Hiroshima"--Dust jacket flap.

Caldron of Conflict Nov 08 2020 Caldron of Conflict tells the story of Eastern Europe in the tumultuous, often violent years 1918-1945. After introducing the region, Wynot traces the differing paths each nation took from imperial rule to independence following World War I. The author next explores how each fared in the two decades of peace, when so many high political and economic hopes were dashed on the rocks of antidemocratic movements and the financial reefs of the Great Depression. It concludes with a survey of World War II and its aftermath. Caldron of Conflict is essential reading for anyone trying to comprehend the recent and ongoing destruction in this explosive and pivotal region of the world.

A Concise History of Portugal Dec 30 2019 This concise, illustrated history of Portugal offers an introduction to the people and culture of the country, its empire, and to its search for economic modernisation, political stability and international partnership. The book studies the effects of the vast wealth mined from Portuguese Brazil, the growth of the wine trade, and the evolution of international ties. The Portuguese Revolution of

1820 to 1851 created a liberal monarchy, but in 1910 the king was overthrown and, by 1926, had been replaced by a dictatorship. In 1975 Portugal withdrew from its African colonies and turned north to become a democratic member of the European Community in 1986. Researched during the years which followed the fall of Portugal's dictators in 1974, this book has become the standard single-volume work. The second edition brings the story up to date and discusses the state of historical writing on Portugal at the turn of the millennium.

Computing Sep 26 2019 A compact and accessible history, from punch cards and calculators to UNIVAC and ENIAC, the personal computer, Silicon Valley, and the Internet. The history of computing could be told as the story of hardware and software, or the story of the Internet, or the story of "smart" hand-held devices, with subplots involving IBM, Microsoft, Apple, Facebook, and Twitter. In this concise and accessible account of the invention and development of digital technology, computer historian Paul Ceruzzi offers a broader and more useful perspective. He identifies four major threads that run throughout all of computing's technological development: digitization—the coding of information, computation, and control in binary form, ones and zeros; the convergence of multiple streams of techniques, devices, and machines, yielding more than the sum of their parts; the steady advance of electronic technology, as characterized famously by "Moore's Law"; and the human-machine interface. Ceruzzi guides us through computing history, telling how a Bell Labs mathematician coined the word "digital" in 1942 (to describe a high-speed method of calculating used in anti-aircraft devices), and recounting the development of the punch card (for use in the 1890 U.S. Census). He describes the ENIAC, built for scientific and military applications; the UNIVAC, the first general purpose computer; and ARPANET, the Internet's precursor. Ceruzzi's account traces the world-changing evolution of the computer from a room-size ensemble of machinery to a "minicomputer" to a desktop computer to a pocket-sized smart phone. He describes the development of the silicon chip, which could store ever-increasing amounts of data and enabled ever-decreasing device size. He visits that hotbed of innovation, Silicon Valley, and brings the story up to the present with the Internet, the World Wide Web, and social networking.

Canada Since 1945 Apr 01 2020 This text is an engaging survey of post-Second World War Canada, exploring ten themes key to the Canadian experience since 1945. An accessible narrative brings together recent scholarship to show how Canadians first re-created the nation following the Second World War, then experienced the fragmentation of the Canada that had emerged, and ultimately remained committed to Canada as a nation-state and community.

A Concise History of the World Since 1945 Sep 30 2022 This lively synthesis of global history since the end of World War II offers a gripping account of an interdependent world and the challenges facing individuals in the 21st century. The narrative is arranged around two key tensions: the struggle between socialism and free-market capitalism and the interaction between cultural fragmentation and the competing integrative force of globalization. Considering the historical experience of Africa, Asia and Latin America as well as the West, it addresses the ever-expanding gulf between the developed North and developing South, and the environmental impact of development on the planet's delicate ecosystems. Authoritative and well-written, this is an ideal introductory guide for undergraduate and postgraduate students taking courses on global history since 1945. It is also a fascinating primer for anyone with an interest in global history and the issues affecting the globe today. New to this Edition: - Updated to cover events since 2006, including the conflicts in Afghanistan, Iraq and Syria, China's economic and military advance to great power status, the refugee crises and the global financial crisis of 2008 - New material on the international drugs trade, global opioid crisis and healthcare implications - Expanded material on social media - Updated material on environmental issues, considering US disengagement from traditional global partners in the area of climate change and the Trump administration's distrust of climate science and executive roll-back of established environmental laws - More social history, especially coverage of women and recent developments around issues of sexuality - Expanded section on Islam to include developments within the mainstream (as opposed to radical) tradition worldwide and current historiography
