ENGLISH FOR EVERYDAY SPEAKING Aug 19 2021 It is said that school leavers in Indonesia are not able to speak English confidently. They have no courage to speak,

even though they actually feel that they have something to say in their mind. They are afraid to make mistakes when speaking because they never feel happy with their English grammar and vocabulary at school. English for Everyday

Speaking is directed at those who have learned English and have no courage to speak but want to practice their spoken English. This book is not only suitably used by high school students, university students, language centers, English

course learners and English speaking club members as a main course book for speaking, but also for employees, workers, staff, teachers, employers or members of a family as a core handbook for language practice during their leisure time. This book covers very common daily topics which everyone is familiar with, such as Daily Activities, Personal Information, Family Life, Culture, Sport, Housemaids, Hobbies and Interests, Smoking and Drinking, Music, Health, Education, School Life, Love, Holiday, Food and Drink, Marriage, Sex, Demonstrations & Strikes, Terrorism, Crime and Prisons, Debates, etc. The questions, which are intended to arouse learners to speak, are generally simple to answer for ordinary learners. They need practical ideas or knowledge but do not need deep academic or scientific knowledge to answer them. However, if the group of learners have more advanced knowledge about the topics and are interested to delve deeper on the topics, there are also some possibilities to do so. English for Everyday Speaking is designed by an experienced English teacher. In addition, these materials have been tried out at STP Bandung, STBA, Maranatha University, the Center at Jl. Setiabudhi, Bandung and some other language centers.

Teaching English Reading in the Chinese-Speaking World Jan 30 2020 This book investigates inherent, structural differences in the Chinese and English writing systems which predispose learners from childhood to develop

specific literacy-learning strategies, which can impair later efforts at learning foreign language literacy if the foreign language script varies significantly from the native language script. It compares educational practices and philosophies in Chinese and English-speaking classrooms, and examines the psychological underpinnings of these literacy learning strategies. This book presents psychometric testing of adult reading strategy defaults and examines case study data, revealing that Chinese students are susceptible to misapplying Chinese character-level processing strategies to English word identification tasks, which decreases reading efficiency, and ultimately can lead to learning failure. Finally, a new educational framework is proposed for teaching beginning language-specific word identification and literacy-learning skills to learners whose first language script varies significantly from that of the target language.

Speaking of Boys Nov 02 2022 My eight-year-old son is the only boy in his class who doesn't have a Gameboy. I don't want him to be ostracized for not having one, but I worry that it's addictive. What do you think? Our two sons are eleven and fourteen, and they are fiercely competitive. The tension around our house is awful. How can we help them get along better? We've worked very hard to keep our ten-year-old son in touch with his feelings. Sometimes it seems as if we've put him at a disadvantage, surrounded by tougher boys who can be pretty cruel with teasing. How can we help him protect himself when other boys start to tease? With his bestselling book *Raising Cain*, Michael Thompson, Ph.D., at last broke the silence surrounding the emotional life of boys and spearheaded an important national debate. His warmth and humor quickly made him a popular and respected international speaker and consultant. Now he directs his authority, insight, and eloquence to answering your questions about raising a son. With candid questions and thoughtful, detailed responses, *Speaking of Boys* covers hot-button topics such as peer pressure, ADHD/ADD, and body image as well as traditional issues such as friendship, divorce, and college and career development.

This perceptive, informative, and passionate book will leave you not only with useful, practical advice but also with the comforting knowledge that other parents share the same concerns you do when it comes to raising our boys into well-adjusted, responsible men.

Speaking for Academic Purposes Jun 16 2021 The 4 Point series is designed for English language learners whose primary goal is to succeed in an academic setting. Academic English learners need skills-based books that

focus on reading, listening, and speaking, as well as the two primary language bases of vocabulary and grammar. The ultimate goal is to help your students improve these skills and earn a 4.0 (GPA). The Introduction to English for Academic Purposes (EAP) level is designed for students in academic programs who need a more general introduction to authentic academic content. The discrete skills volumes are designed for programs and courses that want to more intensively focus on key strategies and authentic academic content in one skill area. Each 4 Point volume covers academic skills while providing reinforcement and systematic recycling of key vocabulary issues and further exposure to grammar issues. These volumes focus very heavily on vocabulary because language learners know that they are way behind their native-speaker counterparts when it comes to vocabulary. Each book highlights key vocabulary items, including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations and longer set lexical phrases. Speaking for Academic Purposes is an introductory textbook containing English for Academic Purposes content. Each unit includes activities to strengthen a range of speaking skills, notably: understanding classroom discourse, using academic language functions, recognizing signal words and phrases, and synthesizing information. These activities are presented within the context of one field of academic study (Architecture, Marketing, Earth

Science, U.S. History, Chemistry, and Fine Arts) per unit. Unique to this speaking text are six videos showing common student interactions. Access to the videos is free. Each unit includes three academic speaking strategies (including one specific to making presentations) and tasks that involve participating in group discussions, interacting with native speakers, and making a presentation. The goal is to provide students with a variety of strategies/tools to master academic situations in which they need to participate.

What exactly do you have to do to get a particular band score? Which easy-to-learn words and phrases can improve your score quickly? What should you include in your answers to impress the examiner? Which aspects of grammar or pronunciation should you focus on? Anyone aiming for band 6 or higher in IELTS Speaking needs targeted practise and easy-to-follow explanations. This book - the result of years of IELTS examination experience - provides the most up-to-date information and an extensive bank of topics and questions with suggestions

on how to create impressive answers that demonstrate to the examiner that your English is of a high standard. The first part of the book gives an overview of the IELTS speaking test and its requirements in terms of the test criteria. It includes sections on vocabulary, grammar and parts of speech that students can use to help them meet the requirements for a score of band 6 or above. The second part of the book provides 60 topic areas for the three parts of the test with questions and suggestions for creating individual answers and for active practice with a partner. These topics and questions are based on actual topics and questions that appear in the IELTS Speaking Module. There is, inevitably, some overlap of topic areas. However, this reflects the situation that students are likely to meet in the real IELTS speaking test. The suggestions provided with the topics and questions are not the only ways to answer the questions, but they provide starting points for candidates who are having difficulty finding ideas. Students should, of course, aim to supplement them with others that they have learnt during their English studies and with their own ideas based on their personal experiences.

Public Speaking for Criminal Justice Professionals Jul 26 2019 Public Speaking for Criminal Justice Professionals: A Manner of Speaking is a one-of-a-kind public speaking guide specifically written for criminal justice professionals, written by a criminal justice professional. Author Thomas Mauriello has worked his entire professional career both as a practitioner and as an educator in the fields of criminal justice and forensic science. This book outlines the public speaking skills he has learned, used, and taught to thousands of criminal justice, forensic science, security, and counterintelligence professionals over the years. The book can either be read from cover-to-cover—to fine tune the reader's existing oral communication skills—or read in a modular fashion, as a reference guide to focus on certain skills and techniques. A list of over 55 proven, effective presentation tools will be listed, discussed, and demonstrated throughout the book—using illustrated criminal justice and forensic sciences topic examples. Contrary to popular believe, simply knowing your subject or being an expert in the subject does not guarantee a successful presentation. Aristotle, who many recognize as the Father of Public Speaking and Forensic Debate, said it best when he declared, "It is not enough to know what to say, one must know how to say it." This guide focuses on technique and the recognition that a speaker must have of both the subject and the listener. The purpose is to improve readers' skill level and ability to engage and,

thereby, inform the listener. Whether preparing to speak to one person, or one thousand people, Public Speaking for Criminal Justice Professionals provides specific techniques for professionals to speaking with confidence, and present effective engaging presentations.
