The Law of success Jun 07 2020 Originally published in 1928, this is the book that began Napoleon Hill's self-help odyssey. Hill queried dozens of people about the keys to their prosperity and organized his findings into 16 principles. Each principle marks a chapter of this book, forming a methodology for employing untapped 'mind-power' that leads to success. Hill was well known for researching what made millionaires different from the common man. The sixteen lessons in this book perfectly crystallize everything you will need to know to succeed during these hard economic times. Many of today's best known self-help books take their core concepts from this book. 'The Secret', 'The Power of Positive Thinking', 'The Millionaire Next Door', and 'The Law of Attraction' all take their basic premises from this landmark work. Once you've read this book you will understand what gives certain people an edge over everyone else. By following the advice laid out clearly herein you'll be the one with an edge. It's time to stop wondering what it's like to be rich and start knowing. This book has changed countless lives and it can change yours! Unlike many of the other editions on the market today, this edition is complete and unabridged! CONTENTS: Lesson One : The Master Mind Lesson Two : A Definite Chief Aim Lesson Three : Self-Confidence Lesson Four : The Habit of Saving Lesson Five : Initiative and Leadership Lesson Six : Imagination Lesson Seven : Enthusiasm Lesson Eight : Self-Control Lesson Nine : Habit of Doing More than Paid For Lesson Ten : Pleasing Personality Lesson Eleven : Accurate Thought Lesson Twelve : Concentration Lesson Thirteen : Co-Operation Lesson Fourteen : Failure Lesson Fifteen : Tolerance Lesson Sixteen : The Golden Rule (The Law of success by Napoleon Hill, 9788180320927) [Start Your Dream Business Today](#) Aug 02 2022 This energizing, entertaining, yet practical guide will launch you into an entrepreneurial career that will immediately make your life – as well as those around you better. Most people are not able to make the practical connection from observing their community and the world around them to what a great business idea looks like. They need a blueprint...not only an idea of what kind of business to start, but tips and techniques on how to make it work. The Biblenomics™ approach and philosophy with principles that are guaranteed to work will not only put great opportunities within your grasp, but you'll see that making money is easy and there is no mystery or secret to achieving success. In fact, the only thing that can kill your dreams is you. With profiles in creativity, and the mission of empowering people with a dream and the drive to succeed, the author will inspire you with his knowledge of: Why be an entrepreneur Stories of entrepreneurs who pioneered a niche or a great idea 101 Business that require no money or education How to get started Marketing advice Tips and techniques for building your business Suggestions for horizontal growth Suggestions for vertical growth Variations How to write a mini-business plan The foundation stones upon which every good business is built How to differentiate yourself from similar businesses The opportunity to be an entrepreneur is for everyone, everywhere. We all long for the dignity of financial independence. Let this book empower, equip and teach you to build your own dream.

[21 Lessons for the 21st Century](#) Apr 05 2020 #1 NEW YORK TIMES BESTSELLER • In Sapiens, he explored our past. In Homo Deus, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. "Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century."—Bill Gates, The New York Times Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's 21 Lessons for the 21st Century is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting

complex contemporary challenges clearly and accessibly, *21 Lessons for the 21st Century* is essential reading. "If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's *21 Lessons for the 21st Century* would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: 'What is happening in the world today, and what is the deep meaning of these events?'"—BookPage (top pick)

Feasible Living - Dealing with Ecological Anxiety While Adapting to Our Changing World Sep 30 2019 No matter which way we turn today, trends like pollution, climate change, and the 4th Industrial Revolution are impacting the ecosystems that you and I live in. These trends are influencing all of us and if you are not concerned about the impact they will have on the current and future wellbeing of you and your loved ones, you should be. This concern is called ecological anxiety, and it is up to you to decide how it should be managed and what actions you will take to adapt and prepare. As you can imagine, the topic of ecological anxiety is vast. This book is an introduction that outlines the major trends to be concerned about, as well as offering up practical ways for you to protect your financial, physical, and mental wellbeing. Ecological anxiety is not just limited to adults either. Our youth can also experience it, perhaps to an even greater extent than adults. This book contains discussions focused on this, why it can be different from adult ecological anxiety, and ways we can mentor them through this scary period of their lives. The seemingly perfect storm of globe-altering trends is already impacting us. Now is the time to take control (and it's easier than you might think).

The End of Education Jan 27 2022 In this comprehensive response to the education crisis, the author of *Teaching as a Subversive Activity* returns to the subject that established his reputation as one of our most insightful social critics. Postman presents useful models with which schools can restore a sense of purpose, tolerance, and a respect for learning.

Professional WordPress Mar 05 2020 An in-depth look at the internals of the WordPress system. As the most popular blogging and content management platform available today, WordPress is a powerful tool. The High Engagement Work Culture Aug 29 2019 The 2008 crisis set off a systemic panic which almost engulfed the world's financial system. Through a lens of sustainability this book examines how organisations can explore a new business culture today. Drawing from real-life examples and new ideas Bowles and Cooper discuss how organisations can move from 'me' to 'we'.

Equity-Centered Trauma-Informed Education (Equity and Social Justice in Education) Feb 13 2021 Educators must both respond to the impact of trauma, and prevent trauma at school. Trauma-informed initiatives tend to focus on the challenging behaviors of students and ascribe them to circumstances that students are facing outside of school. This approach ignores the reality that inequity itself causes trauma, and that schools often heighten inequities when implementing trauma-informed practices that are not based in educational equity. In this fresh look at trauma-informed practice, Alex Shevrin Venet urges educators to shift equity to the center as they consider policies and professional development. Using a framework of six principles for equity-centered trauma-informed education, Venet offers practical action steps that teachers and school leaders can take from any starting point, using the resources and influence at their disposal to make shifts in practice, pedagogy, and policy. Overthrowing inequitable systems is a process, not an overnight change. But transformation is possible when educators work together, and teachers can do more than they realize from within their own classrooms.

Six Memos for the Next Millennium Oct 24 2021 Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore of the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant pr é cis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.

Those Darn Squirrels! Apr 17 2021 Witty text combines with quirky illustrations in this funny take on the classic man versus squirrel conflict over backyard birdfeeders. Full color.

Social Media Communication Oct 31 2019 Examines the social media mechanism and how it is transforming communication in an increasingly networked society *Social Media Communication: Trends and Theories* explores how social media is transforming the way people think and behave. Providing students with an in-depth understanding of the mechanism underlying social media, this comprehensive textbook uses a multidisciplinary approach to examine social media use in a wide range of communication and business contexts. Each chapter is based on original research findings from the author as well as recent work in communication studies, neuroscience, information science, and psychology. Divided into two parts, the text first describes the theoretical foundation of social media use, discussing the impact of social media on information processing, social networking, cognition, interpersonal and group communication, the media industry, and business marketing. The second half of the book focuses on research-based strategies for effectively using social media in communication and business such as the news industry, health care, and social movements. Offering detailed yet accessible coverage of how digital media technology is changing human communication, this textbook: Helps readers make the best use of social media tools in communication and business practices Introduces more than a dozen theories in the areas of communication, psychology, and sociology to highlight the theoretical frameworks researchers use in social media studies Identifies a variety of trends involving social media usage, including the app economy and patient care Addresses the relation between social media and important contemporary topics such as cultural diversity, privacy, and social change Presents 14 imperative social media topics, each with the power to change the ways you see and use social media *Social Media Communication: Trends and Theories* is the perfect textbook for undergraduate and graduate courses in communication, business, journalism, business, and information science and technology. It is also an invaluable resource for researchers, educators, journalists, entrepreneurs, and professionals working in media management, advertising, public relations, and business marketing.

ENGLISH FOR EVERYDAY SPEAKING Apr 29 2022 It is said that school leavers in Indonesia are not able to speak English confidently. They have no courage to speak, even though they actually feel that they have something to say in their mind. They are afraid to make mistakes when speaking because they never feel happy with their English grammar and vocabulary at school. English for Everyday Speaking is directed at those who have learned English and have no courage to speak but want to practice their spoken English. This book is not only suitably used by high school students, university students, language centers, English course learners and English speaking club members as a main course book for speaking, but also for employees, workers, staff, teachers, employers or members of a family as a core handbook for language practice during their leisure time. This book covers very common daily topics which everyone is familiar with, such as Daily Activities, Personal Information, Family Life, Culture, Sport, Housemaids, Hobbies and Interests, Smoking and Drinking, Music, Health, Education, School Life, Love, Holiday, Food and Drink, Marriage, Sex, Demonstrations & Strikes, Terrorism, Crime and Prisons, Debates, etc. The questions, which are intended to arouse learners to speak, are generally simple to answer for ordinary learners. They need practical ideas or knowledge but do not need deep academic or scientific knowledge to answer them. However, if the group of learners have more advanced knowledge about the topics and are interested to delve deeper on the topics, there are also some possibilities to do so. English for Everyday Speaking is designed by an experienced English teacher. In addition, these materials have been tried out at STP Bandung, STBA, Maranatha University, the Center at Jl. Setiabudhi, Bandung and some other language centers.

Why Don't Students Like School? Oct 04 2022 Easy-to-apply, scientifically-based approaches for engaging students in the classroom Cognitive scientist Dan Willingham focuses his acclaimed research on the biological and cognitive basis of learning. His book will help teachers improve their practice by explaining how they and their students think and learn. It reveals the importance of story, emotion, memory, context, and routine in building knowledge and creating lasting learning experiences. Nine, easy-to-understand principles with clear applications for the classroom includes surprising findings, such as that intelligence is malleable, and that you cannot develop "thinking skills" without facts How an understanding of the brain's workings can help teachers hone their teaching skills "Mr. Willingham's answers apply just as well outside the classroom. Corporate trainers, marketers and, not least, parents - anyone who cares about how we learn - should find his book valuable reading." —Wall Street Journal

The Protestant Ethic and the Spirit of Capitalism Feb 02 2020 Author's best-known and most controversial study relates the rise of a capitalist economy to the Puritan belief that hard work and good deeds were outward signs of faith and salvation.

Getting Back to Us May 31 2022 This insightful book provides a wealth of information to readers from multiple perspectives. It allows readers to gain powerful insight into our current population data in a way that gives them a better understanding about each demographic, how we can help each other overcome generational shortcomings, and how we can live in peaceful coexistence. The book not only adds practical and statistical data to make its points, but also adds proven facts, practical recommendations, instructions, and precautions that can be used to improve relationships among families and neighbors on multiple levels. Getting Back to Us educates the reader about the different demographics, providing characteristics and background on how and why populations in each group own the characteristics that they have. There are also some startling facts that surround each demographic, and truths that speak to the pros and cons of each of the primary generations today. Everyone engages with people from all generations, and this book will help you to understand and possibly relate to them better. T. D. Jenkins (the author) highlights many unintended benefits that have been lost to the younger generations and point out ways to resurrect those benefits back into how we raise, communicate, and engage our children and young adults and in how we rebuild our villages. This book is a must-read for adults with young children, grown children, or an extended family; for employers and HR specialists, and for elders in the community that have an ability to impact people to establish stronger communities. Getting Back to Us offers constructive, sound advice for new parents, current parents, and people in general—to restore the knowledge, self-confidence, adult-readiness, caring, sincerity, and self-esteem back into our young people. It's like have your favorite aunt in a bottle!

Engaging Minds Jul 01 2022 Engaging Minds: Cultures of Education and Practices of Teaching explores the diverse beliefs and practices that define the current landscape of formal education. The 3rd edition of this introduction to interdisciplinary studies of teaching and learning to teach is restructured around four prominent historical moments in formal education: Standardized Education, Authentic Education, Democratic Citizenship Education, Systemic Sustainability Education. These moments serve as the foci of the four sections of the book, each with three chapters dealing respectively with history, epistemology, and pedagogy within the moment. This structure makes it possible to read the book in two ways – either "horizontally" through the four in-depth treatments of the moments or "vertically" through coherent threads of history, epistemology, and pedagogy. Pedagogical features include suggestions for delving deeper to get at subtleties that can't be simply stated or appreciated through reading alone, several strategies to highlight and distinguish important vocabulary in the text, and more than 150 key theorists and researchers included among the search terms and in the Influences section rather than a formal reference list.

How to Design and Evaluate Research in Education May 07 2020 How to Design and Evaluate Research in Education provides a comprehensive introduction to educational research. Step-by-step analysis of real research studies provides students with practical examples of how to prepare their work and read that of others. End-of-chapter problem sheets, comprehensive coverage of data analysis, and information on how to prepare research proposals and reports make it appropriate both for courses that focus on doing research and for those that stress how to read and understand research.

Future-proof Your School Sep 03 2022 Wouldn't it be great if you could equip your school and yourself to face whatever the future might throw at you! Schools face myriad calls on their time and creativity yet have finite internal resources to respond to them. This can result in piecemeal changes, and reactive rather than pro-active approaches. This book reduces, filters and prioritises the demands on staff energy to the central task of all schools - to achieve the best engagement of and learning outcomes for all learners (including the staff themselves). Schools often feel constrained by their current context, their previous performance, their demographics or available staff. This book provides an holistic and effective approach to change management that is simple, engages all stakeholders, is built around the current expertise and culture of the school and, most importantly, is sustainable. It is suitable for headteachers, senior or aspiring leaders, and those driving change through initiatives, but also individual teachers who are interested in effective practice as a route towards personal well-being and professional satisfaction. -- Dr Morris Charlton

If you can't reach them you can't teach them May 19 2021 If only there was one simple answer to all your teaching concerns. There is! This book argues that by focusing on building effective learning relationships with your pupils, everything else will fall into place. It can be the basis for positive behaviour management, stress reduction, student engagement and pupil progress. By identifying and then meeting the core set of needs we all possess in order to engage in any learning activity, you can improve teaching and learning and minimise challenge and stress. The text encourages you to reflect on your own practice throughout and plan for interventions and changes that will improve your teaching and the experiences of the learners in your care. This is not a theory book or an academic research tome; it is a straight talking, practical, thought provoking and insightful look into the challenges of being the best teacher you can be. Suitable for whatever stage you are at in your career, and whatever age group you teach, this book proposes a narrative that can work alongside the ever-increasing range of educational initiatives

to which teachers are exposed.

Driving Sep 22 2021 This book is designed to help drivers acquire the skills needed to improve their driving and keep safe on the road. It contains the latest information including guidance on: driver responsibility, attitude and the law; techniques for driving on motorways, at night and in all-weather; manoeuvring and defensive driving techniques; basic maintenance, breakdowns and towing; eco-safe driving; avoiding congestion; accidents and emergencies; vehicle security; and driving in Europe.

Last Olympian, The (Percy Jackson and the Olympians, Book 5) Oct 12 2020 All year the half-bloods have been preparing for battle against the Titans, knowing the odds of victory are grim. Kronos's army is stronger than ever, and with every god and half-blood he recruits, the evil Titan's power only grows. While the Olympians struggle to contain the rampaging monster Typhon, Kronos begins his advance on New York City, where Mount Olympus stands virtually unguarded. Now it's up to Percy Jackson and an army of young demigods to stop the Lord of Time.

Reckoning Jan 15 2021 How do journalists know what they know? Who gets to decide what good journalism is and when it's done right? What sort of expertise do journalists have, and what role should and do they play in society? Until a couple of decades ago, journalists rarely asked these questions, largely because the answers were generally undisputed. Now, the stakes are rising for journalists as they face real-time critique and audience pushback for their ethics, news reporting, and relevance. Yet the crises facing journalism have been narrowly defined as the result of disruption by new technologies and economic decline. This book argues that the concerns are in fact much more profound. Drawing on their five years of research with journalists in the U.S. and Canada, in a variety of news organizations from startups and freelancers to mainstream media, the authors find a digital reckoning taking place regarding journalism's founding ideals and methods. The book explores journalism's long-standing representational harms, arguing that despite thoughtful explorations of the role of publics in journalism, the profession hasn't adequately addressed matters of gender, race, intersectionality, and settler colonialism. In doing so, the authors rethink the basis for what journalism says it could and should do, suggesting that a turn to strong objectivity and systems journalism provides a path forward. They offer insights from journalists' own experiences and efforts at repair, reform, and transformation to consider how journalism can address its limits and possibilities along with widening media publics.

A Deadly Wandering Mar 17 2021 "Deserves a spot next to Fast Food Nation and To Kill a Mockingbird in America's high school curriculums. To say it may save lives is self-evident." —New York Times Book Review (Editor's Choice) **NEW YORK TIMES BESTSELLER • A BEST BOOK OF THE YEAR:** San Francisco Chronicle, Christian Science Monitor, Kirkus, Winnipeg Free Press One of the decade's most original and masterfully reported books, *A Deadly Wandering* by Pulitzer Prize-winning New York Times journalist Matt Richtel interweaves the cutting-edge science of attention with the tensely plotted story of a mysterious car accident and its aftermath to answer some of the defining questions of our time: What is technology doing to us? Can our minds keep up with the pace of change? How can we find balance? On the last day of summer, an ordinary Utah college student named Reggie Shaw fatally struck two rocket scientists while texting and driving along a majestic stretch of highway bordering the Rocky Mountains. *A Deadly Wandering* follows Reggie from the moment of the tragedy, through the police investigation, the state's groundbreaking prosecution, and ultimately, Reggie's wrenching admission of responsibility. Richtel parallels Reggie's journey with leading-edge scientific findings on the impact technology has on our brains, showing how these devices play to our deepest social instincts. A propulsive read filled with surprising scientific detail, riveting narrative tension, and rare emotional depth, *A Deadly Wandering* is a book that can change—and save—lives.

Diary of an Uber Driver Nov 12 2020 'The best storyteller we've had on the show' Kyle Sandilands, Kyle & Jackie O, KIIS FM Welcome to the secret world of the Uber driver. Ben Phillips enjoys an intimate glimpse into the lives of ordinary people around Sydney -- from their morning routines to their despair after a date gone wrong, the trip out to the city and the drunken ride home afterwards. He acts as a sounding board, takes the rap for loud music, sees people at their finest and weakest, and most importantly gets to observe a cast of thoroughly extraordinary characters that make a big metropolis. Featured on ABC The Drum, The Today Show and KIIS FM, Ben Phillips' wry wit and insight have taken Sydney by storm. *Diary of an Uber Driver* is a snapshot of our unerring propensity to share, and overshare, from the safe anonymity of the back seat. These are your stories -- whether you remember telling them or not.

100 Ideas for Secondary Teachers: Outstanding Science Lessons Nov 24 2021 Winner of best Secondary non-ICT resource at the 2016 ERA awards, this is a brand new title in the successful 100 ideas series which provides secondary school science teachers with practical ideas and activities to use in their lessons as well as teaching and planning strategies to help make practice outstanding every day. The author is a science teacher and winner of the Wellcome Trust Enthuse award for Science. He has a growing Twitter following and the book will be full of his really original and engaging science ideas. The book will include ideas on integrating literacy into science lessons, safety in the lab and ideas for challenging the more able.

Handbook of Research on Driving Transformational Change in the Digital Built Environment Aug 22 2021 The construction industry is amidst a digital transformation that is focused on addressing well-documented issues and calls for significant improvements and changes through increased productivity, whole-life value, client focus, reduction of waste, and being more sustainable. The key aspect to driving change and transformation is the education and upskilling of the required workforce towards developing the required capacities. Various approaches can be taken to embed digital construction within education and through collaborative efforts in order to drive change and facilitate improvements. The *Handbook of Research on Driving Transformational Change in the Digital Built Environment* focuses on current developments in practice and education towards facilitating transformation in the built environment. This book provides insight, from a practice perspective, in relation to the client's understanding, digitally enabled collaboration, interoperability and open standards, and maturity/capability. Covering topics that include digital transformation and construction, digitally enabled infrastructure, building information modelling, collaborative digital education, and the digital built environment, this book is an ideal reference source for engineers, professionals, and researchers in the field of digital transformation as well as doctoral scholars, doctoral researchers, professionals, and academicians.

Computed Tomography for Technologists Sep 10 2020 Leveraging the organization and focus on exam preparation found in the comprehensive text, this Exam Review will help any student to successfully complete the ARRT General Radiography and Computed Tomography exams. The book includes a bulleted format review of content, Registry-style questions with answers and rationales, and a mock exam following the ARRT format. The companion website offers an online testing simulation engine.

Mare's War Jan 03 2020 Meet Mare, a World War II veteran and a grandmother like no other. She was once a willful teenager who escaped her less than perfect life in the deep South and lied about her age to join the African American Battalion of the Women's Army Corps. Now she is driving her granddaughters—two willful teenagers in their own rite—on a cross-country road trip. The girls are initially skeptical of Mare's flippy wigs and stilettos, but they soon find themselves entranced by the story she has to tell, and readers will be too. Told in alternating chapters, half of which follow Mare through her experiences as a WAC and half of which follow Mare and her granddaughters on the road in the present day, this novel introduces readers to a larger-than-life character and a fascinating chapter in African American history.

How We Think Feb 25 2022 Our schools are troubled with a multiplication of studies, each in turn having its own multiplication of materials and principles. Our teachers find their tasks made heavier in that they have come to deal with pupils individually and not merely in mass. Unless these steps in advance are to end in distraction, some clew of unity, some principle that makes for simplification, must be found. This book represents the conviction that the needed steadying and centralizing factor is found in adopting as the end of endeavor that attitude of mind, that habit of thought, which we call scientific. This scientific attitude of mind might, conceivably, be quite irrelevant to teaching children and youth. But this book also represents the conviction that such is not the case; that the native and unspoiled attitude of childhood, marked by ardent curiosity, fertile imagination, and love of experimental inquiry, is near, very near, to the attitude of the scientific mind. If these pages assist any to appreciate this kinship and to consider seriously how its recognition in educational practice would make for individual happiness and the reduction of social waste, the book will amply have served its purpose. It is hardly necessary to enumerate the authors to whom I am indebted. My fundamental indebtedness is to my wife, by whom the ideas of this book were inspired, and through whose work in connection with the Laboratory School, existing in Chicago between 1896 and 1903, the ideas attained such concreteness as comes from embodiment and testing in practice. It is a pleasure, also, to acknowledge indebtedness to the intelligence and sympathy of those who cooperated as teachers and supervisors in the conduct of that school, and especially to Mrs. Ella Flagg Young, then a colleague in the University, and now Superintendent of the Schools of Chicago.

Learn to Drive in 10 Easy Stages Aug 10 2020 Praise and Reviews "Quite simply, this is the best book for learner drivers I have read" KENNETH PARKER, ADI "The best driver teaching aid I have encountered" ANDY HOWES, ADI About to take your driving test? How confident are you of passing first time? As with any examination, your success depends very much on how well prepared you are. Learn to Drive in 10 Easy Stages is now established as one of the most popular and best-selling guides to preparing for your driving test. By following the carefully structured step-by-step programme, it is guaranteed to boost your confidence and double your chances of passing first time. This edition of Learn to Drive has been fully revised and updated to take account of the new test format. Designed to be as user friendly as possible this clearly illustrated guide will teach you all you need to ensure that you are well prepared for the theory and practical tests. It covers: getting to know the car; the first steps in learning to drive; handling all the manoeuvres; using common sense and avoiding danger; coping with higher speeds; dealing with difficult situations. For half the cost of a driving lesson, you can immediately improve your chances of success.

Dear Ijeawele, or A Feminist Manifesto in Fifteen Suggestions Dec 02 2019 NATIONAL BESTSELLER • The award-winning author of We Should All Be Feminists and Americanah gives us this powerful statement about feminism today—written as a letter to a friend. A few years ago, Chimamanda Ngozi Adichie received a letter from a childhood friend, a new mother who wanted to know how to raise her baby girl to be a feminist. Dear Ijeawele is Adichie's letter of response: fifteen invaluable suggestions—direct, wryly funny, and perceptive—for how to empower a daughter to become a strong, independent woman. Filled with compassionate guidance and advice, it gets right to the heart of sexual politics in the twenty-first century, and starts a new and urgently needed conversation about what it really means to be a woman today. A Skimm Reads Pick An NPR Best Book of the Year

My Mouth is a Volcano Jun 27 2019 Teaching children how to manage their thoughts and words without interrupting. Louis always interrupts! All of his thoughts are very important to him, and when he has something to say, his words rumble and grumble in his tummy, they wiggle and jiggle on his tongue and then they push on his teeth, right before he ERUPTS (or interrupts). His mouth is a volcano! But when others begin to interrupt Louis, he learns how to respectfully wait for his turn to talk. My Mouth Is A Volcano takes an empathetic approach to the habit of interrupting and teaches children a witty technique to help them manage their rambunctious thoughts and words. Told from Louis' perspective, this story provides parents, teachers, and counselors with an entertaining way to teach children the value of respecting others by listening and waiting for their turn to speak.

Building Web Apps with WordPress Mar 29 2022 WordPress is much more than a blogging platform. As this practical guide clearly demonstrates, you can use WordPress to build web apps of any type—not mere content sites, but full-blown apps for specific tasks. If you have PHP experience with a smattering of HTML, CSS, and JavaScript, you'll learn how to use WordPress plugins and themes to develop fast, scalable, and secure web apps, native mobile apps, web services, and even a network of multiple WordPress sites. The authors use examples from their recently released SchoolPress app to explain concepts and techniques throughout the book. All code examples are available on GitHub. Compare WordPress with traditional app development frameworks Use themes for views, and plugins for backend functionality Get suggestions for choosing WordPress plugins—or build your own Manage user accounts and roles, and access user data Build asynchronous behaviors in your app with jQuery Develop native apps for iOS and Android, using wrappers Incorporate PHP libraries, external APIs, and web service plugins Collect payments through ecommerce and membership plugins Use techniques to speed up and scale your WordPress app

3 Keys to Keeping Your Teen Alive Nov 05 2022 Imagine lying awake in bed, waiting to hear the front door open so you'll know your teen is home safely. But instead, tonight, the doorbell rings. Your heart stops when you see the police officers in the doorway, and you know instantly that your life will never be the same again. Wouldn't you do ANYTHING to go back and change things? By then it will be too late. The time to

prepare your teen to drive and survive is NOW! "3 Keys to Keeping Your Teen Alive" provides a simple step-by-step plan to prepare teens to become safe, responsible drivers. Parents can use it to teach their teens to drive or to make sure they cover all the bases in their practice sessions after the teen has taken a professional driver training course. "3 Keys to Keeping Your Teen Alive" includes: 25 structured driving lessons, great advice from top experts, checklists to follow and other useful tools. There are true stories, quizzes and puzzles to keep your teen interested and reinforce the learning. The companion website (TeensLearntoDrive.com) has additional resources and links to great instructional & informational videos that complement each lesson. The program works with Graduated Driver Licensing (GDL) Programs. "3 Keys to Keeping Your Teen Alive" is straightforward and easy to follow but will take a lot of time, patience and dedication from both of you--parent and teen. Isn't it worth it?

Learning without School Jul 09 2020 While some people look back on school as the 'best days of your life', for others the experience can be unpleasant and gruelling. Learning without School is a practical handbook for parents who want to educate their children at home but are unsure that they have the skills and know-how required to give their child the best education possible. This book explains what home education is; the advantages and disadvantages of choosing this route; how to begin home educating; what you need to do and how to help your child adjust; and how home education affects children's social skills and friendships. It also covers technical aspects, such as the curriculum, core subjects, exams and timetables. Ross Mountney also considers children with 'learning difficulties' or 'special needs' and how to approach home education differently for this group of children. Each chapter contains a summary of key points, useful websites, hints and tips and real-life case studies. This practical guide offers indispensable support for parents who are considering home education for their child, and includes a broad philosophy of education that will interest all parents and professionals involved in education and child welfare.

Driving Consumer Engagement in Social Media Jul 21 2021 Summarizing the extant research on marketing communications, social media and word of mouth, this book clarifies terms often incorrectly and interchangeably used by scholars and marketers and provides principles of effective marketing communications in social media for different brand types and in different geographic markets. Conversations among consumers on social media now have an unprecedented ability to shape attitudes toward people, products, services, brands and to influence buying decisions. Consequently, the digital era brings to the fore the importance of interpersonal relations and the power of personal recommendations. This book is the first to empirically investigate how the form and appeal of marketing communications in social networks influence electronic word of mouth, including an examination of brand type and geographic market. The author focuses on motivations and reveals why people exchange opinions about brands, products and services in the digital environment. The book summarizes the existing research on marketing communications, social media and word of mouth, provides a cutting-edge knowledge based on the analysis of the actual behavior of consumers and rules of effective marketing communications in social media. This research-based book is written for scholars and researchers within the fields of marketing and communication. It may also be of interest to a wider audience interested in understanding how to use social media to influence electronic word of mouth.

Recent Advances in Traffic Engineering for Transport Networks and Systems Jun 19 2021 This book is a collation of numerous valuable guidelines for making decisions based on recent advances and improvement of transport systems. Offering know-how and discussing practical examples as well as decision-making support systems it is of interest of those who face the challenge of seeking solutions to contemporary transport system problems on a daily basis, including local authorities involved in planning and preparation of development strategies for specific transport related areas (in both urban and regional dimension) as well as representatives of business and industry who participate directly in the implementation of traffic engineering solutions. The guidelines are provided in individual chapters, making it possible to address the given problem in an advanced manner and simplify the choice of appropriate strategies (including those related to increasing competitiveness of public transport; identifying bus lines to potentially be serviced by electric buses; pedestrian traffic solutions; developing bike-sharing systems; safety conditions in road tunnels; integrating supply chains or route planning support by means of technologically advanced systems and applications). On the other hand, since the book also addresses the new approach to theoretical models (including traffic flow surveys and measurements, transport behaviours, capacity models, delay modelling and road condition modelling), it appeals to researchers and scientists studying this body of problems. The book entitled Recent Advances in Traffic Engineering for Transport Networks and Systems includes selected papers submitted to and presented at the 14th Scientific and Technical Conference "Transport Systems. Theory and Practice" organised by the Department of Transport Systems and Traffic Engineering at the Faculty of Transport of the Silesian University of Technology. The conference was held on 18–20 September 2017 in Katowice (Poland).
