Into the Darkest Corner Oct 08 2020 Catherine Bailey has been enjoying the single life long enough to know a catch when she sees one. Gorgeous, charismatic and spontaneous, Lee seems almost too

perfect to be true. And her friends clearly agree, as each in turn falls under his spell. But what begins as flattering attentiveness and passionate sex turns into raging jealousy, and Catherine soon learns there is a darker side to Lee. His increasingly erratic, controlling behaviour becomes frightening, but no one believes her when she shares her fears. Increasingly isolated and driven into the darkest corner of her world, a desperate Catherine plans a meticulous escape. Four years later, Lee is behind bars and Catherine—now Cathy—compulsively checks the locks and doors in her apartment, trusting no one. But when an attractive upstairs neighbour, Stuart, comes into her life, Cathy dares to hope that happiness and love may still be possible . . . until she receives a phone call informing her of Lee's impending release. Soon after, Cathy thinks she catches a glimpse of the former best friend who testified against her in the trial; she begins to return home to find objects subtly rearranged in her apartment, one of Lee's old tricks. Convinced she is back in her former lover's sights, Cathy prepares to wrestle with the demons of her past for the last time. Utterly convincing in its portrayal of obsession, *Into the Darkest* corner is an ingeniously structured and plotted tour de force of suspense that marks the arrival of a major new talent.

**John Randolph Haynes** Dec 22 2021 For four decades, John Randolph Haynes (1853-1937) was in the forefront of social-reform crusades and political action in Los Angeles and California, with his most important legacies in the fields of direct legislation and public ownership of utilities. He was the individual most responsible for the adoption of the initiative, referendum, and recall in Los Angeles in 1902 and in California in 1911. His vigilant protection of these measures thereafter and his promotion of direct legislation throughout the nation earned him the title "father of direct legislation" in California. From 1910 until his death, Haynes's chief priority was to shape the Los Angeles Department of Water and Power into a glowing example of public ownership of utilities.

Today, LADWP operates the world's largest municipal water and electrical power generation and distribution system, continuing to serve the needs of an ever-growing region whose extent even Haynes could not have envisaged. In many ways, Haynes is an enigma. He was not a typical progressive, having amassed a fortune in his medical practice and in real estate, mining, and other capitalistic ventures. However, he spent a large portion of his wealth to promote a form of gradual, democratic socialism in the United States. Haynes advocated the transformation of the nation's economy and government, yet he campaigned for morality laws that limited personal freedom. Haynes's motivation was not social status or money, both of which he had before his conversion to social reform. Nor was it political power: he never ran for office (except as a temporary freeholder) or created a personal political machine. His primary motive was a perhaps arrogant yet honest desire to aid in the creation of a more just society by improving the living and working conditions of the less fortunate. In one way or another, Haynes participated in all the major social and political events that shaped California and Los Angeles in a most dynamic era of their development. In a broader sense, Haynes's life serves as a yardstick with which to measure other progressives of his time and as a key for understanding the motivation of those idealists who helped shape our present political institutions.

*Red Lines, Black Spaces* Jun 03 2020 Runyon Heights, a community in Yonkers, New York, has been populated by middle-class African Americans for nearly a century. This book—the first history of a black middle-class community—tells the story of Runyon Heights, which sheds light on the process of black suburbanization and the ways in which residential development in the suburbs has been shaped by race and class. Relying on both interviews with residents and archival research, Bruce D. Haynes describes the progressive stages in the life of the community and its inhabitants and the factors that enabled it to form in the first place and to develop solidarity, identity and political consciousness. He shows how residents came to recognize common political interests within the community, how racial consciousness provided an axis for social solidarity as well as partial insulation from racial slights, and how the suburb afforded these middle-class residents a degree of physical and social distance from the ghetto. As Haynes explores the history of Runyon Heights, we learn the ways in which its black middle class dealt with the tensions between the political interests of race and the material interests of class.
